# CERTIFICATE OF ACCREDITATION

**No. 487/2022**

**JD Dvořák, s.r.o.**  
**with registered office V Holešovičkách 1448/14, 180 00 Praha 8 - Libeň,**  
**Company Registration No. 49621815**

to the Testing Laboratory No. **1676**  
Testing Laboratory

Scope of accreditation:

Testing of thermal and climatic resistance of products, vibration and shock tests, corrosion tests in artificial atmospheres to the extent as specified in the appendix to this Certificate.

This Certificate of Accreditation is a proof of Accreditation issued on the basis of assessment of fulfillment of the accreditation criteria in accordance with

**ČSN EN ISO/IEC 17025:2018**

In its activities performed within the scope and for the period of validity of this Certificate, the Body is entitled to refer to this Certificate, provided that the accreditation is not suspended and the Body meets the specified accreditation requirements in accordance with the relevant regulations applicable to the activity of an accredited Conformity Assessment Body.

This Certificate of Accreditation replaces, to the full extent, Certificate No.: 186/2022 of 19. 4. 2022, or any administrative acts building upon it.

The Certificate of Accreditation is valid until: **18. 10. 2027**

Prague: 18. 10. 2022

**Lukáš Burda**  
Director of the Department  
of Testing and Calibration Laboratories  
Czech Accreditation Institute  
Public Service Company

**The Appendix is an integral part of  
Certificate of Accreditation No. 487/2022 of 18/10/2022**

**Accredited entity according to ČSN EN ISO/IEC 17025:2018:**

**JD Dvořák, s.r.o.**  
Testing Laboratory  
Toužimská 897/E3, 199 00 Praha 18 - Letňany

**Tests:**

| Ordinal number <sup>1</sup> | Test procedure / method name                    | Test procedure / method identification <sup>2</sup>                | Tested object  |
|-----------------------------|---|--|--|
| 1                           | Test of resistance to climatic changes          | PV 1200  | Products and components for motor vehicles             |
| 2                           | Test of resistance to variable climate          | PV 2005, Variant A   | Products and components for motor vehicles             |
| 3                           | Cold test                                       | ČSN EN 60068-2-1, ed. 2, except chapter 6.8, 6.13                  | Industrial products and their components               |
| 4                           | Dry heat test                                   | ČSN EN 60068-2-2, except chapter 6.7, 6.13                         | Industrial products and their components               |
| 5                           | Change of temperature test                      | ČSN EN 60068-2-14, ed. 2, except chapter 6, 9                      | Industrial products and their components               |
| 6                           | Damp heat test, cyclic                          | ČSN EN 60068-2-30 ed. 2, except chapter 6, 10                      | Industrial products and their components               |
| 7                           | Composite cyclic test, temperature and humidity | ČSN EN 60068-2-38 ed 2, except chapter 6.2, 6.5                    | Industrial products and their components               |
| 8                           | Damp heat test, steady state                    | ČSN EN 60068-2-78 ed. 2, except chapter 5                          | Industrial products and their components               |
| 9                           | Corrosion test in salt spray                    | ČSN EN ISO 9227, Method NSS,                                       | Parts and assemblies; surface coatings and protections |
| 10                          | Corrosion test in condensation-water atmosphere | ČSN EN ISO 6270-2, except chapter 9.5.4                            | Parts and assemblies; surface coatings and protections |
| 11                          | Combined corrosion test                         | ČSN EN 60068-2-52, ed.2; PV 1210; ČSN 34 5791-2-11; IEC 60068-2-11 | Parts and assemblies; surface coatings and protections |
| 12                          | Vibration test – sinusoidal                     | ČSN EN 60068-2-6, ed.2   | Industrial products and their components               |
| 13                          | Vibration test – broadband random               | ČSN EN 60068-2-64, ed.2  | Industrial products and their components               |
| 14                          | Shock test                                      | ČSN EN 60068-2-27, ed.2  | Industrial products and their components               |
| 15                          | Combined climatic and vibration/shock test      | ČSN EN 60068-2-53  | Industrial products and their components               |

<sup>1</sup> asterisk at the ordinal number identifies the tests, which the Laboratory is qualified to carry out outside the permanent laboratory premises

<sup>2</sup> if the document identifying the test procedure is dated, only these specific procedures are used. If the document identifying the test procedure is not dated, the latest edition of the specified procedure is used (including any changes)

**Explanations:**

PV Volkswagen Standard  
NSS Neutral salt spray
